

Infosafe No™ 5GF9Y	Issue Date : September 2020	Status : ISSUED
--------------------	-----------------------------	-----------------

Product Name **element.ac POE Electric Compressor Oil**

Not classified as hazardous

1. Identification

GHS Product Identifier element.ac POE Electric Compressor Oil

Product Code EHB250

Product Type POE Electric Compressor Oil

Company Name SuperCool Asia Pacific Pty Ltd (ABN 71 011 044 385)

Address 14 Motorway Circuit Ormeau
QLD AUSTRALIA

Telephone/Fax Number Tel: (07) 5549-4000
Fax: (07) 5549-4044

Emergency phone number 1800 628 133 (24/7)

2. Hazard Identification

GHS classification of the substance/mixture Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety Regulations, Australia.
Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Precautionary statement – General Keep out of reach of children.

3. Composition/information on ingredients

Ingredients	<u>Name</u>	<u>CAS</u>	<u>Proportion</u>
	All ingredients are classified as non-hazardous at the concentrations used according to the criteria of Safe Work Australia	Not applicable	

4. First-aid measures

First Aid Measures If poisoning occurs contact a doctor or Poisons Information Centre Phone Australia 131126, New Zealand 0800 764 766. Always seek medical attention if symptoms develop due to exposure.

Inhalation If inhaled, remove to fresh air. If not breathing, apply artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.

Ingestion Drink warm water to induce vomiting. Seek medical attention.

Skin If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. Wash skin with soap and water upon contact. If swelling, redness, blistering or irritation occurs seek medical attention. Wash clothing before reuse.

Eye contact In case of eye contact, immediately flush eyes with plenty of water for at least 15 minutes while holding eyelids open. In all cases of eye contamination it is a sensible precaution to seek medical attention.

Advice to Doctor Treat symptomatically. Show this SDS to the medical practitioner.

5. Fire-fighting measures

Fire Fighting Measures Fire fighters to wear full body protective clothing with breathing apparatus. Deluge surrounding containers with water to keep them cool until fire is extinguished. Evacuate immediately and move upwind of fire if there are signs of container discolouration or sounds of pressure building.

Suitable extinguishing media If material is involved in a fire use foam, dry powder, carbon dioxide or sand

Infosafe No™ 5GF9Y	Issue Date : September 2020	Status : ISSUED
--------------------	-----------------------------	-----------------

Product Name **element.ac POE Electric Compressor Oil**

Not classified as hazardous

Unsuitable Extinguishing Media	If material is involved in a fire do not use water.
Hazards from Combustion Products	Water, carbon monoxide and carbon dioxide
Special Protective Equipment for fire fighters	Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to vapour or products of combustion.

6. Accidental release measures

Emergency Procedures	Wear appropriate personal protective equipment when containing and cleaning up spills. Isolate the hazard area and deny entry for unnecessary and unprotected personnel.
Methods and materials for containment and cleaning up	Stop leaks. Provide adequate ventilation to spill area. Avoid ignition sources such as sparks and flames.
Spills & Disposal	Avoid concentrated spillage from entering drains or watercourse. Remove for disposal in accordance with local waste management. Use suitable containers for disposal.
Clean-up Methods - Small Spillages	Wear protective equipment to prevent skin and eye contamination. Soak up residue with an absorbent (such as sand, earth or other suitable material). Allow absorbent to dry and sweep up and place in non-leaking container, sealed tightly for proper disposal.
Clean-up Methods - Large Spillages	Prevent further leakage or spillage if safe to do so. Slippery when spilt. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contamination and the inhalation of vapours. Work up wind or increase ventilation. Contain - prevent run off into drains and waterways. Use vacuum truck or pump to storage/salvage vessels. If contamination of sewers or waterways has occurred advise local emergency services.
Environmental Precautions	Do not discharge into drains and surface waters. Review local regulations before release to the environment.

7. Handling and storage

Precautions for Safe Handling	Equip work area with eye wash facility and safety shower. Avoid contact with eyes, skin and clothing. Avoid breathing vapours, fumes or mists. Wash hands and face thoroughly after handling.
Conditions for safe storage, including any incompatibilities	Store in a cool, dry, well-ventilated place and out of direct sunlight and away from heat, sparks and flame. Do not store in open or unlabelled containers. Keep away from open flames and high temperatures.
Other Information	Empty containers retain residue (liquid and/or vapour) and can be dangerous. Do not cut, weld or expose containers to heat or flame.

8. Exposure controls/personal protection

Occupational exposure limit values	No value assigned for this specific material by Safe Work Australia or Department of Labour New Zealand.
Biological Limit Values	As per the 'National Model Regulations for the Control of Workplace Hazardous Substances (Safe Work Australia)' the ingredients in this material do not have a Biological Limit Allocated.
Appropriate engineering controls	Be hermetic and ensure adequate aeration.
Respiratory Protection	Not required
Personal Protective Equipment	OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES. When handling individual retail packs no personal protection equipment is required. When handling bulk wear overalls, safety glasses and impervious gloves. Available information suggests that gloves made from nitrile rubber should be suitable for intermittent contact. However, due to variations in glove construction and local conditions, the user should make a final assessment.

Infosafe No™ 5GF9Y	Issue Date : September 2020	Status : ISSUED
--------------------	-----------------------------	-----------------

Product Name **element.ac POE Electric Compressor Oil**

Not classified as hazardous

Hygiene Measures Keep away from food, drink and animal feeding stuffs. When using do not eat, drink or smoke. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-using. Avoid eye contact and repeated or prolonged skin contact. Ensure that eyewash stations and safety showers are close to the workstation location.

9. Physical and chemical properties

Form Liquid
Appearance Colourless or light yellow, transparent liquid
Specific Gravity 0.92 - 0.98
Pour Point <-50C
Flash Point > 260C
Flammability Non flammable
Kinematic Viscosity 28 - 35 mm²/s (40C), 5 - 6 mm²/s (100C)

10. Stability and reactivity

Chemical Stability This material is stable under normal conditions of storage and use.
Conditions to Avoid High temperature, fire and direct sunlight
Incompatible Materials Strong acids, alkalis and oxidisers
Hazardous Decomposition Products Product does not decompose at ambient temperatures.
Hazardous Polymerization Will not occur

11. Toxicological Information

Toxicology Information This material has been classified as non-hazardous.
Ingestion This material has been classified as non-hazardous.
Inhalation This material has been classified as non-hazardous.
Skin This material has been classified as non-hazardous.
Eye This material has been classified as non-hazardous.

12. Ecological information

Ecotoxicity This material has been classified as non-hazardous.
Persistence and degradability No information available

13. Disposal considerations

Disposal Considerations Remove for disposal in accordance with local waste management regulations. Suggest to treat by burning according to the local and national laws.

14. Transport information

Transport Information Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail or NZS 5433:1999 Transport of Dangerous Goods on Land.
 Transport in original container if possible, or metal bucket or flexitank.
Other Information MARINE TRANSPORT
 Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.
 AIR TRANSPORT

Infosafe No™ 5GF9Y	Issue Date : September 2020	Status : ISSUED
--------------------	-----------------------------	-----------------

Product Name **element.ac POE Electric Compressor Oil**

Not classified as hazardous

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

15. Regulatory information

Poisons Schedule Not Scheduled
AICS (Australia) All ingredients listed

16. Other Information

Literature References Preparation of Safety Data Sheets for Hazardous Chemicals Code of Practice. Standard for the Uniform Scheduling of Medicines and Poisons. Australian Code for the Transport of Dangerous Goods by Road & Rail. Globally Harmonised System of classification and labelling of chemicals. Raw material supplier SDS.

Other Information SDS version: 1
Reason for revision: first issue (Note: Name changed from POE Hybrid Oil 04.02.2022)

DO NOT MIX WITH OTHER CHEMICALS WITHOUT PRIOR CONSULTATION WITH THE MANUFACTURER. Always use product as directed. Never return any unused material to original drum.

Safety Data Sheets are updated frequently. Please ensure that you have a current copy.

This SDS summarises at the date of issue our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the workplace. Since SuperCool Asia Pacific Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this SDS in the context of how the user intends to handle and use the product in the workplace.

If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this company. Our responsibility for product as sold is subject to our standard terms and conditions, a copy of which is sent to our customers and is also available upon request.
