## Viper Max Strength Evaporator Cleaner Venom Pack

Part # RT320V, 1065ml

### Overview:

Viper Max Strength Evaporator Cleaner is a super-concentrated version of our Viper Evap+. It is the industry's only non-rinsing evaporator coil cleaner to utilise enzymes in a synthetic detergent base. Enzymes are the most effective cleaning agents for cold water environments. Embedded soils that resist conventional detergents are successfully removed by Viper Max Strength Evaporator Cleaner, which delivers complete deodorisation and deep cleaning performance when allowed to remain on the coil and self-rinse over time with condensate production. Safe for all metals, plastics and rubber. OEM approved for use on aluminium micro-channel coils. The solution remains active for about 72 hours and is gradually rinsed by condensate production.

### Used Where:

HVACR evaporators.

### Directions:

1. Add the desired amount of pure concentrate into the Viper Foam Sprayer (RT301S).
2. Fill the container with potable water to the maximum fill level.
3. Spray cleaner to fully saturate the coil with fluid.
4. Non food processing areas: No waiting or rinsing required.
5. Food processing areas: Remove or protect food with packaging materials. Rinse with potable water after use.
6. The equipment can now be placed back into operation.

### Chemical Description:

Proprietary aqueous enzyme composition in a detergent base containing degreasing and soil release agents. Biodegradable and EPA compliant. This product does not contain any VOCs, HAP, TAC or CA Prop 65 ingredients. Please refer to SDS for more information.

### Properties:

Viper Max Strength Evaporator Cleaner is a non-toxic, non-flammable and non-odorous product. Suitable for use on indoor evaporator coils or use as a multipurpose cleaning and degreasing compound.

### Certifications:

NSF P1 registration number 126062 for use in food establishments. Kosher certified by OK Kosher.

### Storage and Handling:

Use standard precautionary measures when handling any chemical such as wearing gloves and eye protection. Never mix or combine this product with any other product or ingredient. Keep container closed and store away from heat or direct sunlight. Use in well ventilated areas. Rinse any affected areas with water. Soak up spills with absorbent material and dispose according to Federal or State laws. KEEP OUT OF REACH OF CHILDREN.

Have you ever checked the chemical ingredients  
of the products you are using now?  
Technician Safety is our #1 priority!
