

element.ac

Your new best friend.

Lubricating oil is the lifeblood of all air-conditioning and refrigeration systems.

The element range offers professional technicians a premium lubricant solution, with precise performance characteristics across all system parameters.

This is a product you can use with confidence. OE approved by Unicla compressors and Burgaflex hose solutions - using element oil means one less thing to worry about.

Why element?

- OE Approved
- Multiple grades and viscosities
- Synthetic POE, PAG, PAG HD, PAO
- Aerosol Spray-Lube Assembly Oil
- Highly refined Mineral Vacuum Pump Oil
- Exceeds industry specifications
- Batch tested and certified - during and after production
- Robust, recyclable and reusable steel tins - protects from moisture and UV

Tech Tips:

- Use the specified oil type, grade and viscosity - do not mix oil types
- Use the correct oil quantity - do not over-oil or under-oil the system
- Use additives with caution - do not dilute oil with excess UV-dye
- Keep oil tins clean and securely capped when not in use
- Use element.ac oil with confidence
