What is it?

Viper Sniper is an ergonomic, universal trigger sprayer designed to fit most standard aerosol cans used in HVAC service work. The full-hand trigger design gives technicians greater spray control, reduces finger fatigue, and improves accuracy during application. The fast side-clip attachment makes it easy to install and remove in seconds.

- Universal fit for standard aerosol cans*
- Improved comfort and spray control
- Reduces finger and hand fatigue
- Fast clip-on attachment system
- Durable and reusable for field use
- Pack contains 2 sprayers
- *Aerosol can not included!

Who is it for?

Designed for HVAC&R technicians applying aerosol-based products on coils, filters, and service components. Ideal when using Viper-branded aerosols such as coil coatings and cleaners. Companion SuperCool products available include Viper Coil Cleaner (RT375A), Viper Coil Coating (RT640A), and element.ac Spray Lube (EPE68S).

Suitable for:

- HVAC-R technicians
- Automotive A/C technicians
- Maintenance and facility service teams
