

# element.ac Spray Lube

Work hard. Spray hard.

element.ac Spray Lube is a premium synthetic polyolester (POE) oil formulated for compatibility with all refrigerants and systems, including R1234yf and advanced electric compressors. Its engineered additive blend provides superior lubricity, wear protection, and corrosion resistance. Packaged in a robust 300g aerosol steel can, it stays protected from moisture and UV while offering reliable, easy application every time.

element.ac is a **SuperCool** solution. Visit [www.supercool.group](http://www.supercool.group) to learn more.

## NYLOG REDUCE LEAKS & COMEBACKS

Nylog is both a lubricant and the industry's only fully compatible and completely miscible sealant. It will not contaminate, clog or cause system restrictions. Use Nylog on all your AC hose & pipe connections to eliminate costly comebacks due to premature joint failures. Nylog never hardens or dries, it remains a viscoelastic refrigeration oil for life.

Part No.  
RT201B

## BIG BLU THE ORIGINAL & BEST LEAK DETECTOR

The original bubble leak detector solution capable of detecting micro gas leakage as small as 18.5 grams per year. Finds leaks in AC systems, air brake systems, charge air-coolers, inlet manifolds and more. Won't stain paint or leave permanent residue. Trusted by mining, mobile, and stationary HVAC, truck and fleet workshops worldwide.
